

Faculty Position in Construction Management

FIU is a multi-campus public research university located in Miami, a vibrant international city. FIU offers more than 180 baccalaureate, masters, professional, and doctoral degree programs to over 46,000 students. As one of South Florida's anchor institutions, FIU is worlds ahead in its local and global engagement and is committed to finding solutions to the most challenging problems of our times.

The Department of Construction Management in the College of Engineering and Computing at Florida International University, Miami, Florida, invites applications for a tenure-track or tenured faculty position at all ranks, with an anticipated start date of August 2012. Successful candidate must have the ability and qualifications to develop and sustain an active research program with external funding. The department currently needs expertise in, building construction materials, building science, and sustainable construction. Research focus in areas such as innovative construction materials, urban infrastructure, energy efficient or smart buildings, and global construction are desired. For a senior faculty position, a higher level of research accomplishment and scholarly activities are expected.

Applicants must have an earned doctorate in construction engineering, construction management, and/or a closely related field. Experience in the construction industry is highly desirable. Depending on their interest, successful candidates will have the opportunity to interact and collaborate with faculty in Civil and Environmental Engineering, International Hurricane Research Center, Applied Research Center, and the School of Architecture. Available facilities include, Wall of Wind, Titan America Structures and Construction Research Laboratory and the MEP (mechanical, electrical and plumbing) Laboratory. The department also plans to develop a construction process laboratory in the near future.

The Department offers an accredited baccalaureate program with current enrollment of over 400 students and a masters program enrolling over 200 students, including a fully online Masters program. In addition, the department faculty can supervise doctoral students in civil engineering on dissertation research in construction engineering and management.

The University is strategically located in one of the largest construction markets in the United States, with the opportunity for faculty involvement with major construction firms and organizations. The Department enjoys tremendous support from the local construction industry. For further information about the department please visit www.cm.fiu.edu.

Applicants should submit a letter of interest specifying the desired rank, teaching interest, and research plan and a detailed curriculum vitae, with names, addresses (including e-mail), and telephone numbers of at least three references. For priority consideration, candidates should submit all application materials prior to March 31, 2012. However the search will continue until the position is filled. Applications must be submitted online at <http://hr.fiu.edu/pshr/> with reference position 503956.

FIU is a member of the State University System of Florida and is an Equal Opportunity, Equal Access Affirmative Action Employer.
